Dear Robin:

I heard you on National Public Radio the other morning. You were great! The case sounds emotionally draining but you are doing a righteous job at defending the young woman. It's comforting to know that while the Dah mer case is receiving so much attention in your town, and I cringe every time the defense attorney speaks (I use defense attorney loosely), that there are still zealous and creative attorneys in Milwaukee doing the right thing. Keep up the good work. An awful lot of us out here in the daily trenches are cheering your uphill battle.

With kind regards,

Lisa Monet Wayne,  
Deputy State Public Defender
